BECAUSE WE CARE

We're all about complete office and warehouse solutions and installation services.

It's an investment in time and money, and our qualified team will work with you to maximise your workspace and productivity.

All Storage Systems has been assisting companies with their workspace requirements for over 35 years. We have built up experience and knowledge in the industry that will inspire you and take the pain out of your decision making.

At the heart of our business lies an undeniable commitment to providing the best quality and service for our customers - it's why they keep coming back.

Because we care.

7 Reasons to choose All Storage Systems

Australian, Family Owned Company

We're a family owned business that is all about supporting other Aussie businesses.

Project Management & Installation

We have extensive experience in complete project installations and our own team of installers to ensure your job runs smoothly to schedule.

Huge Product Range

Our product range is extensive and many lines are held in stock for immediate despatch.

Quality At An Affordable Price

We have always held to the saying "Give them quality - it's the best type of advertising". You can be assured of quality with All Storage Systems - both in the outcome and the service.

Sourcing Service

The best solution is not always a standard product and our team is continually sourcing items worldwide to ensure you get the best outcome.

Advice From The Experts

We've been helping customers with their storage and equipment for over 35 years. You can trust our advice to be the best!

A Team That Cares

We genuinely care about the outcomes. We are all about the relationship not the transaction.

ALL STORAGE SYSTEMS

Creating Better Workspaces

We create functional workspaces - both in the office and warehouse areas.
Call us on 1800 772 726 with what you're looking to accomplish.

Pallet Racking Audits

Steel storage racking is subject to constant use resulting in damage and general wear and tear. Conducting regular inspections of your pallet racking is essential to ensure a safe work environment and to comply with Australian Standards AS/NZS 4084:2023 and FEM 10.2.04. Pallet racking needs to be audited by competent personnel at least annually. Our experienced team are qualified to look after this for you and ensure your workplace is safe.

Inspections Include:

- Visual site examination and assessment by qualified personnel
- Compliance report compiled which details risks and recommendations
- Colour coded report supplied showing level of action required

Mezzanine Floors

All Storage has been designing, manufacturing and installing mezzanine floors for over 10 years. The perfect option to increase space in your current warehouse – some of the uses for mezzanine floors include:

Storage
Increase your storage space in a warehouse with integrated racking or extra space for bulk storage and archiving.

Office
Additional workspace for staff offices, meeting areas, break out rooms or control rooms.

Retail
Increase the space on your shop floor, adding stockroom space, storage for large or specialist items or extra office space.

Hospitality
Add extra seating or serving areas, storage or stock rooms for food preparation.

Cable Racking

ALSTOR™ Cable Racking is a system designed to provide direct access to rolls of cable by using fixed and interchangeable levels, thus optimising every available space. The system can be used for a variety of cable roll weights and sizes, allowing easy access and visibility to the product.

ALSTOR™ Tyre Racking

Our tyre storage solution has been developed specifically for the challenges faced when handling and storing tyres. Highly configurable the system can be used as small stand alone racks for 12 tyres, to modular mezzanine storage for larger quantities.

- Accommodates all tyre sizes
- Uses a bolt-free lock-in system - no tools required
- OH & S compliant
- Highly configurable so you can change your storage as required
- Tyres are accessible from both sides of the rack

Standard Depths	450, 600mm
Standard Widths	900, 1200, 1800, 2400mm
Standard Heights	2200, 3000, 5100mm

Mobile Storage Tyre Racks

- Available in both mechanical and manual operation
- Great space saver - only one aisle space required
- Ask our team about the best option for your needs
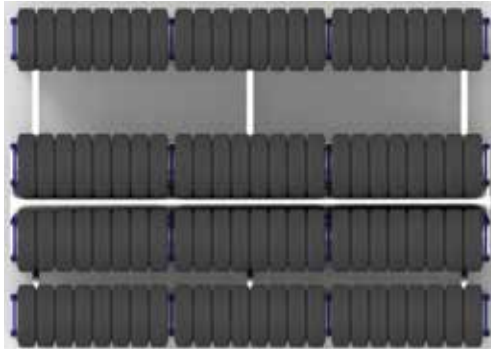

Modular Raised Tyre Storage System

- Modular tyre storage is the most popular design worldwide
- Can be added to in all 4 directions as your business expands
- Excellent value for money
- Easy to install and reconfigure

ALSTOR™ Tyre Chute

- Quickly and safely transfer tyres from mezzanine to floor level
- Accommodates tyres of all sizes
- Made in Australia
- **Built to customer requirements**

Free Track Mobile Storage Systems

Free Track Mobile Storage Units are an economical storage system for the office, archive area or the warehouse. Free Track is available in longitudinal (cross aisle) or transverse style to suit storage space and accessibility requirements.

Free Track Mobile Storage Units are available in standard configurations or can be designed to suit specific requirements.

Free Track Mobile Storage Units are supplied to suit specific needs by quotation only. Please contact our sales team for assistance.

DEPTHS (mm)	WIDTHS (mm)	HEIGHTS (mm)
300, 400	900, 1200	1875, 2175
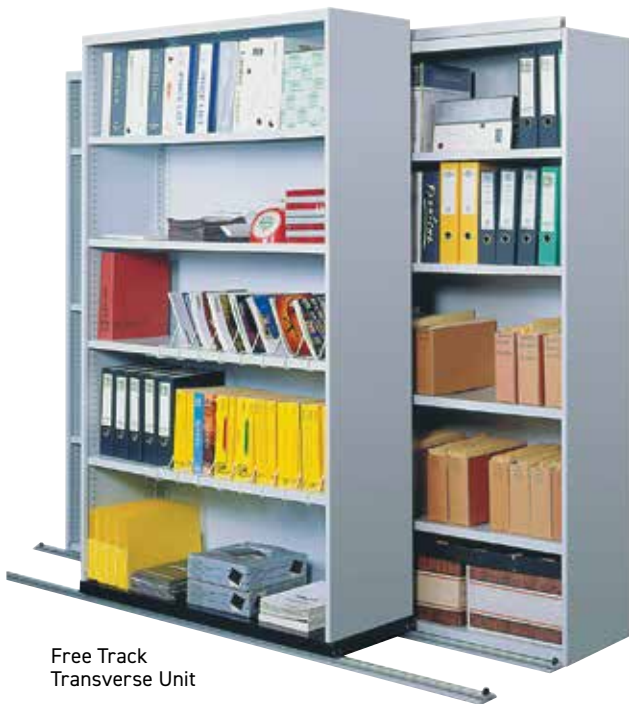

Free Track
Transverse Unit

Standard Free Track
Longitudinal (Cross Aisle) Unit

- Free of any fixed or standard lengths. Just lay track to suit the space
- The low profile on-floor aluminium tracking and precision bearing load wheel system allows for easy movement of shelving units
- Shelving is fitted to base trolleys with aluminium wheel carriers for reduced weight and increased rigidity
- Safety is ensured by the overhead stabiliser system tying the units together as they slide
- As the tracks are not fastened to the floor, there is no damage to floor coverings
- Free track units can be added to and reorganised
- Units can be easily relocated
- Range of accessories available to suit your requirements
- Range of colours available
- 4, 6, 8 or 10 bay units available
