

Mezzanine Floors

All Storage has been designing, manufacturing and installing mezzanine floors for over 10 years. The perfect option to increase space in your current warehouse – some of the uses for mezzanine floors include:

Storage

Increase your storage space in a warehouse with integrated racking or extra space for bulk storage and archiving.

Office

Additional workspace for staff offices, meeting areas, break out rooms or control rooms.

Retail

Increase the space on your shop floor, adding stockroom space, storage for large or specialist items or extra office space.

Hospitality

Add extra seating or serving areas, storage or stock rooms for food preparation.
